

November 2, 2016

Hello,

my name is                    I'm 21 years old, I'm a highly motivated girl to working in tourism sector. I attended regularly the high school getting a certificate as a "Technical expert for tourism", participating in various initiatives that allowed me to practice on the field, as "Open Monument". I started working at 17 years old, although I was still in school, because I have always considered important field experience, and yet I graduated with an average of 70. I have always working in direct contact with customers of different nationalities that allowed me to put into practice my knowledge, but especially mature personal qualities, such as patience and calm in the face of difficult and stressful situations, the ability to work independently and to adapt the needs of the structure where I work. I am a humble person, who did different jobs and never stop, to try to achieve my goal, namely working in tourism sector.

Thank you for your attention.
